Comments:

This application is identical to the parent application except that we have made amendments to the specification which were entered in the prosecution of the parent application, and no new matter has been added. The claims from the parent application have been amended in response to the latest Office Action regarding claims over prior art. More specifically, the claims are not obvious over the Paterson '272 reference because Paterson does not teach a panel at the edge (Paterson is on the front only). Paterson does not have an exposed edge, and it is not at the top of the PC.
